# Report of Governor Dummer Academy September 1981

---

*By John W. Ragle  
Headmaster*

Governor Dummer Academy has begun to face the challenge of the 1980's from a position of strength, determination and commitment.

All over campus has sprung up evidence of further physical plant improvements directly traceable to the "Milestones" campaign which is, consequently, directly reflective of the steadily growing support and involvement of alumni and friends of Governor Dummer. On the verge of Whipple Field, ground has at long last been broken for a roof over the Frost Hockey Rink. Along with it will go up the shell of a building to house three much needed team locker rooms for all-year use, alternately by boys and by girls, depending upon the season. Completion of that part of the project will have to wait the acquisition of funds, but the whole project should be far along by November 1.

For the second consecutive summer a new and most attractive faculty apartment has been constructed, this time in the unused space in Peirce Under, part of the Trustees' ongoing commitment to improving faculty housing. Some important remodeling is underway to increase the efficiency of the Library. Additional drainage on Morse Field, following up work done on Whipple Field last year, will prepare us to fend off better the effects of wet weather in fall and spring.

Other important effects of "Milestones," are felt this year. The level of faculty salaries has been substantially heightened. Commitment is high; turnover is minimal, but healthy. Four full-time teachers, all with good experience, join the faculty this fall, along with two part-time. In addition, reflecting the Board of Trustees' concern for support, guidance, and leadership toward students, faculty, and parents alike, Chris Harlow, formerly Chairman of GDA's History Department, has after a year away, been appointed Assistant Headmaster and has moved his family back on campus.

Like virtually all members of the Academy administration (except, alas, the Headmaster) Chris will teach and coach along with his other duties.

Among the happiest events of every summer are the visits to campus of a steady current of alumni, often with their families.

Of more and more importance, mutually, is the interaction between Governor Dummer and the community that surrounds it. Again this summer the

Ipswich Summer Theatre produced in the Thompson Auditorium an elaborate and highly entertaining Gilbert and Sullivan operetta — this year, "Rudigore" (in which faculty member emeritus John Witherspoon played a starring role). The Theatre of Newburyport took over the stage for an excellent musical review. Many colorful weddings chose as their setting the lovely Moseley Chapel, including a wedding within the Moseley family itself (for well over a century closely associated with the Academy); and including as well the gala marriage of alumnus ('71) and faculty member Mike Mulligan and Joy Sawyer, who this year joins our English faculty from three years at the Thacher School in California and two at Choate.

While the regular round of cleaning and refurbishing has been going on, many programs have used the campus facilities, including the dormitories and the dining hall (newly and spectacularly redecorated and refurnished, itself!): an Expressive Therapy Workshop from Lesley College which brought to the campus forty foreign visitors, including a contingent of Israelis; several Project Adventure workshops; and a variety of camps for soccer, field hockey, football and cheerleading — hundreds of high school cheerleaders!

Meanwhile in the offices we have looked ahead to the new school year: counseling parents and students, scheduling, planning housing for nearly 200 boarding students (the largest number in over a decade) and preparing mailings to the parents of the more than 335 girls and boys who began arriving on campus September 14. As eighty-eight graduates set out upon their college careers, among them some of the strongest leaders of the Academy in recent years, we all eagerly anticipate the accomplishments of this year's student body, including 110 newcomers.

1981-82 holds new and inviting challenges. To the fundamental curricula in the five core areas, English, Mathematics, Science, Languages, and History, we intend to continue to join, increasingly, courses in the arts. A Curriculum Study Committee will address the question, with the new semester system replacing the old trimesters, of whether we can enrich our course offerings by introducing semester courses.

In his statement elsewhere in this issue of *The Archon*, President of the Board of Trustees Carl "Skip" Pescosolido, '55, emphasizes the intent of the Board to be "proactive" rather than simply reactive. It is the spirit of assessing our values and our educational philosophy, of developing foresight, and of building strength from strength which invests our purpose and gives us our drive into the new school year.

### Trustee Affairs

*By Carl A. Pescosolido, Jr.  
President, Board of Trustees*

**D**uring the decade of 1970-1980 as I have served as a member of the Board of Trustees the transition from Val Wilkie to Jack Ragle took place; the tur-

bulence of the late 60's was replaced by a purposefulness; the faculty has strengthened, and the Trustees strengthened the Academy's financial and physical resources by their decision to undertake the most ambitious capital campaign in the history of the oldest boarding school in the United States.

The Trustees look forward to the challenges of serving the Academy from the strongest foundation ever available to the students. What we now have is a tribute to the care and concern of many alumni and parents.

The attention of the Trustees is now turning towards an evaluation of the educational philosophy of the Academy, towards an analysis of the physical needs of the 1980's. This is not to suggest any significant departure from the traditional concepts which have been of proven benefit and value to our students and parents. Rather it is to state that as the socio-economic environment of our country evolves, however imperceptible may be that process, simultaneously your Trustees must determine whether and when adaptations are required.

The present Trustees believe that the number of students has been and remains an important part of the educational and social experience of Governor Dummer. It is the general philosophy of the Trustees that the intimacy of the Academy affords students an environment, a community, which many may not again experience. The Trustees believe that the size of our school provides curriculum, sports, and activities in excellent depth and balance. Simultaneously, it is a size which allows recognition and fostering of individual growth. We do not choose to dilute this experience.

Many Trustees, including myself, desire to strengthen the national reputation of the Academy by attracting more students from outside New England. It is our belief that there is much to be gained from the experience of students living and learning in a community which is heterogeneous.

The winds of financial change are blowing upon our land at all levels of government. One implication suggests that the public sector system of education will be under increasing pressure to achieve a quality educational experience. Of necessity, it would seem, the private sector will be affected . . . challenged in a positive way. The Trustees will remain sensitive to the implications of the newly-emerging financial pressures upon the public sector as they will inevitably affect

Governor Dummer. Changes, as they occur, will result from the proactive deliberations of the Trustees, to the greatest extent possible. It is our belief that reactive change, while sometimes necessary, often proceeds from a basis of need rather than of values and philosophy. Therefore, the results of such change often are not durable. The durability of Governor Dummer (1763-1981) will not be taken for granted. We intend that the Milestone will be a symbol of increasing importance to future students and alumni.

### Academic Affairs

*By Richard N. Leavitt  
Director of Studies*

**I**n my estimation, 1980-81 has been a very good year for Governor Dummer. The student body has been quite stimulating, and, for the most part, hard

working. Faculty have been at it as hard as ever. Extracurricular programs in athletics and the arts (art, drama, and music) have been successful. There seems to be, with ever-present faults to be worked on, a feeling of accomplishment and happiness throughout the school. The number of students we lost this year was far fewer than has been the norm in the last decade. The entrance test results each year seem to be inclining upward. And the faculty is buoyed by the success of the Annual Fund, the increased interest of alumni and parents, and (especially appreciative of) the significant attention paid by the Board to the salary situation.

Five new faces appeared in the teaching faculty last September along with one veteran returning from a two-year leave of absence and two new people in the Development Office. They brought experience and maturity with them, and those that have joined us in the past three years have seasoned well. Thus, I believe we have achieved an important balance and stability within our faculty.

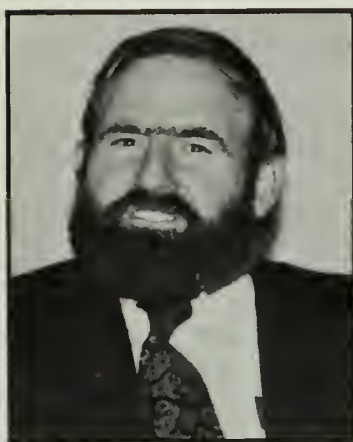

The curriculum has remained fairly consistent over the past year, although the addition of the Introduction to the Fine Arts for freshmen was a strong step forward the improvement of our arts program, as was the Improvisation and Theory Workshop given by Chris Stowens in Music. The use of our Wang computer facility has far exceeded our earlier expectations and is indicative of the interest and progress in our math and computer offerings.

In a less formal way, the curriculum has been enriched this year by an increase in the number of special programs brought to school meetings: several dramatic presentations were sponsored by the English Department and one by the French students and staff; Professor Joseph S. Nye, Jr., sponsored by the Long Civic Service Educational Foundation and the History Department, spoke

on nuclear weaponry; Senator Edward Kennedy visited the school; and various musical presentations were heard.

1980-81 was a lively, healthy school year, and in these dog days of August it's satisfying both to recall the pride in student accomplishment as recognized by the Academy at its 218th Commencement and to be busily at it with other administrators and faculty firming up the details of operation for 1981-82. There were the numerous prizes awarded for achievement and for character, spirit, or concern. There are the hopes, intentions, and excitement for the new scholastic opportunities—a separate Advanced Placement section for American History and an evening honors seminar in English for selected students from the regular senior sections—and a renovated, revived Frost Library. But all this means little until the arrival of 335 young men and women, new and old, on September 14.

**Student Affairs**  
*By Robert H. Colgate*  
*Dean of Students*

The past school year was exciting and rewarding for everyone connected with Governor Dummer. As the new Dean of Students, I had much to learn about the students, the faculty and the school. The enthusiasm, high spirits and sense of pride of our students for their school and the dedication of the faculty made it easy for me to become involved quickly.

All aspects of student life outside of the classroom and athletic field usually have something to do with my office. My wife and I got a taste for this on the first weekend of the school year as we attended an all school dance in the Alumni Gym put on by the Social Committee. This committee of students and their faculty advisor is responsible for planning, organizing and running campus social activities. Some of their most successful events last year included a Halloween costume party in the dining hall with a spooky movie in Thompson Auditorium afterwards; a Monte Carlo night in the Cobb Room with faculty members serving as dealers and croupiers; and an off campus formal dinner dance in the Spring in Newburyport. This affair was attended by almost one hundred couples and was judged to be a huge success by all. These and other social events help to promote an atmosphere that I feel is important but one that we sometimes lose sight of — namely, that school should be exciting and fun. Our strong heritage, unique location and able faculty all promote this atmosphere, but, equally important is leadership from students.

Increased emphasis has been placed on providing opportunities for students to learn to grow in leadership roles. Beyond the traditional role of the dorm proctors in Freshman and Sophomore dorms, students have accepted responsibility in the French Student Union Building, in the library and for daily study halls. Students play effective and important roles in the work of several faculty/student committees — the Discipline Committee, the Food Committee, the Spring Term Project Committee. Perhaps the biggest change in the last few years has been the evolution of the Student Council into a joint student-faculty Community Council with wide responsibilities. This body came into being through the efforts of a few dedicated and determined students. It provides a forum where student ideas and opinions can be discussed, a quick and efficient avenue for communication of ideas or proposals to the faculty or administration; and an opportunity for students and faculty to work together.

If we are to continue to expect students to grow in their leadership roles in the school — as I feel we should — several things must happen. First and foremost the academy must be willing to commit time and energy to training students for the roles. At the present time, we sponsor two of our incoming seniors at the Milton Summer Student Leadership Conference. Positions of leadership on the school's publications — the Governor, the Milestones, the Spire, are filled with seniors who have demonstrated their abilities while helping as sophomores or juniors. Proctors are supported by a peer group that meets periodically. These efforts are adequate as far as they go but, we need to find others. The second element of the development of leadership within the student body is the willingness of the Academy to take risks — to risk that the students might fail. Often this is the thing that is hardest for us as teachers to accept although we all recognize its educational value. Just as a parent would, we do not want our students to fail. As a result, I feel that we sometimes do not extend to them opportunities that we might. Finally, we need to be sure that the responsibilities that we ask our students to undertake are meaningful. Without this key element, students become cynical and quickly lose interest.

Two programs that the Academy currently sponsors offer the greatest opportunity for meaningful responsibilities, often outside of GDA. The Community Service Program helps our students to find volunteer positions in the surrounding towns. These often involve a degree of leadership with younger children. In addition, Seniors on Spring Term Projects have often held highly responsible positions. An outstanding example of this was the student who directed and produced last spring's dramatic production — "Play It Again, Sam."

In these and other ways students make significant contributions to the success and excitement of the school year. We look forward to another strong year with a lively school spirit and dynamic student leadership.

## Admissions

*By Michael A. Moonves  
Director of Admissions*

**T**he major thrust for the admissions office runs from the opening of school in September to early March when final decisions are mailed to candidates. During this approximately six-month period, the members of the admissions staff are busy interviewing candidates, visiting public junior high-school guidance counselors and private elementary-school headmasters, speaking at gatherings of parents and students who desire to learn more about independent education, traveling to distant regions to try to interest families from afar, attending meetings with admissions officers from other schools, and maintaining proper office mechanics to insure timely responses to all inquiries about Governor Dummer. All of this may seem like a lot of work, and it is; but it is fun, and it is gratifying. It is fun because we are constantly in contact with all different kinds of people. It is gratifying because, when all is said and done, we feel extremely confident that our new students will add a great deal to the Academy.

Statistically, the 1980-81 admissions year was an excellent one for Governor Dummer. When we sent out our acceptances last March, we had made final decisions on approximately thirty percent more candidates than the year before. The same kind of increase could be found in the number of families who visited the campus. A very heartening note in all of this was the fact that eighty percent of all those prospects who visited submitted final applications. This in itself is clear evidence that visitors leave with a very positive impression of what's going on here. Again and again families comment on the purposeful and friendly atmosphere that they see and feel on their tour.

At the time of this writing, we in admissions are gearing up for what we hope will be another busy season. Certainly the early indications point this way, as we have already received many more preliminary applications than we had a year ago. Thus, the expectations are high for another year of fun and gratification.

## Financial and Physical Resources

*By Donald A. Champoux  
Business Manager*

**G**overnor Dummer Academy may be best described as a very old physical facility, with a strong traditional academic program and managed by a Board of

Trustees with expertise in the fundamentals of modern management.

When one considers the spectrum of a plant with structures that date from 1715 to buildings as modern as 1979, and that these buildings continue to meet the needs of our current curriculum, we can be grateful to those in the past who had the vision to provide the facilities that meet our present needs.

In retrospect, these accomplishments were not achieved without great anxiety and sacrifice by those who were concerned and who completed them.

And so it is today! Our present financial position continues to be strengthened. Inflation continues to dilute the effective real dollar gains—but we are gaining.

Our recent successful "Milestones" campaign has generated income to do many of the small "cosmetic" things that will give the Academy a more pleasing appearance.

Our long-range goals must be and are being addressed. With energy a major cost factor within the budget, we must begin to modernize some of the older buildings, either by rehabilitation or demolition and replacement.

The remaining years of the "Eighties" should prove to be exciting and challenging.

As Business Manager I need not worry about the academic standards of the Academy, for they are in good hands. My responsibility is to manage the financial and physical resources of the Academy and to see that the Board of Trustees are kept sufficiently informed about the short and long range problems so that they are able to make prudent decisions.

I have often oversimplified most of the problems at the Academy by stating, "If we had the money, we could solve the problem." There is no question in my mind that the money would help, but the final solutions will result from the concern and dedication of all who continue to contribute their support to maintain the fine tradition of Governor Dummer.

## Development

*By Stuart D. Chase  
Director of Development*

**A**ll people associated with Governor Dummer Academy should feel proud for their school for much has been accomplished this past year. One fact remains perfectly clear. Whatever has been accomplished is the direct result of many, many loyal and enthusiastic people—whether they be alumni, parent, friend or staff—working together to support and advance a fine institution.

As we look at this past year we can check off many highlights: superb annual fund giving, successful conclusion of the Milestones capital fund

campaign, excellent attendance and spirit at alumni and parent receptions, enthusiastic phone-a-thons, a great Alumni Reunion Weekend. We find hard-working class agents, parent fund committee members, trustees and other various members. We find people committed to sustaining and further developing Governor Dummer Academy's posture of excellence.

Alumni and parents must pat themselves and each other on the back for the good accomplished this year, yet at the same time recognize the challenges of tomorrow. The needs of the Academy are very great. Annual giving must increase, both dollars and percentages, just to keep pace with inflation. The Trustees hope that more people will want to include Governor Dummer in their wills and estate plans. Endowment has grown substantially during the past ten years and

must continue to climb to keep tuition competitive with sister schools and to insure an excellent education.

Governor Dummer Academy is your institution to help nurture and prosper. Your support helps her grow and is an expression of your caring and concern.

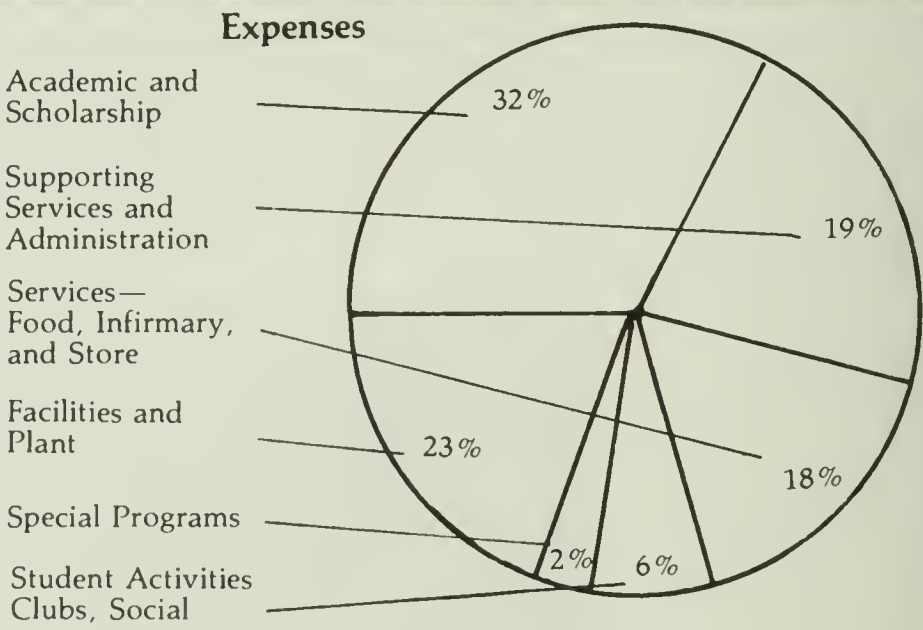

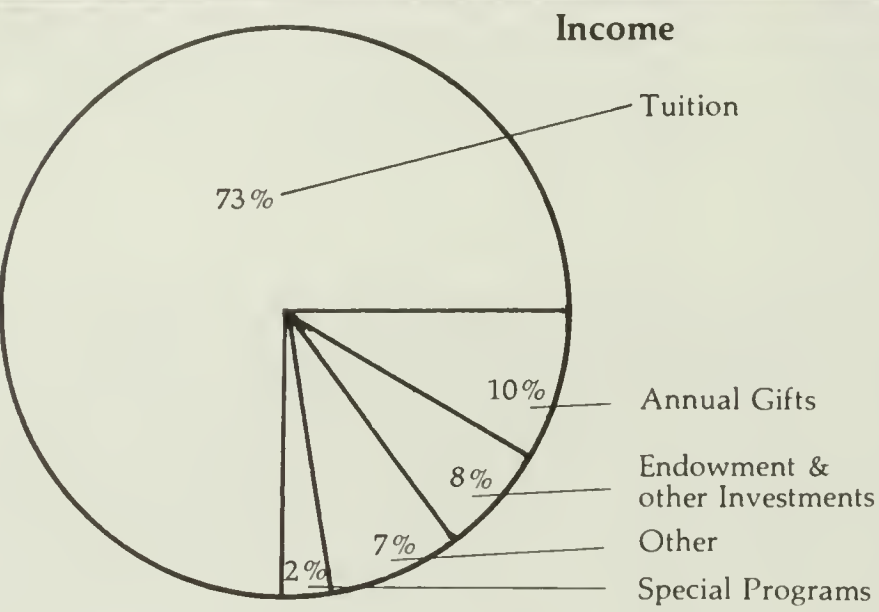

Many of you have given willingly, thoughtfully and unselfishly over the years. We hope others will want to also because of the realization that Governor Dummer Academy will continue to go forward only with increased voluntary support.

It has been our pleasure to get to know many alumni, parents and friends of the Academy. We look forward to meeting and working with more of you.

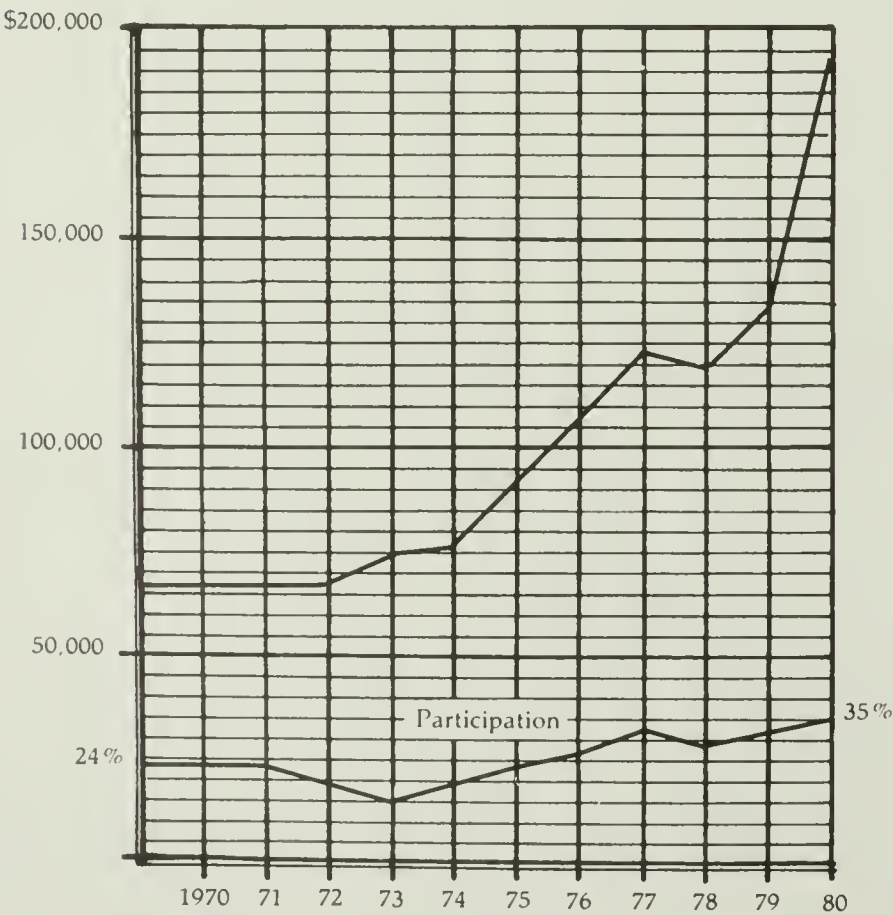

# Statement of Income and Expenses June 30, 1981

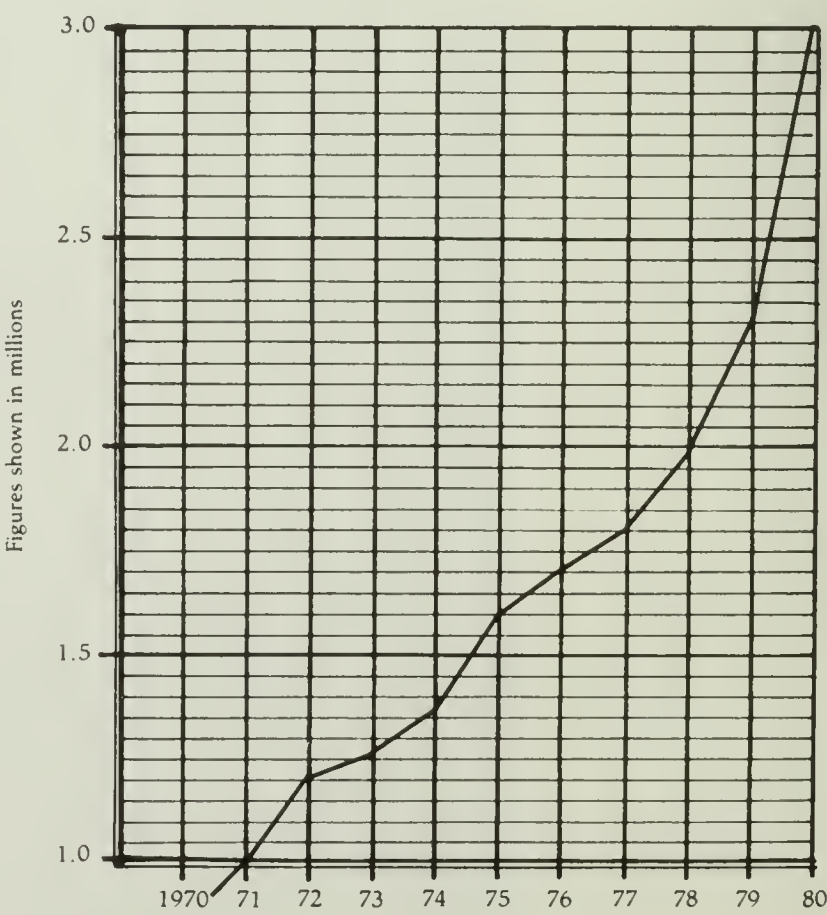

In presenting these pie charts and income graphs, it is vital for the reader to note the following percentages for comparison: annual giving at other comparative independent schools averages approximately 12%; endowment per student at GDA is approximately \$9,000 whereas the norm at comparative secondary schools is \$26,000 per student. Governor Dummer must continue to increase annual giving support and endowment and be less dependent upon tuition, even though tuition is at the median of independent schools. On the expense side our funding by area is comparable to other schools.

---

# Annual Fund Soars to All Time High of \$193,625

---

Unquestionably 1980-1981 was a most exciting and rewarding year for Governor Dummer Development.

The Annual Fund broke all past records both in numbers of participants as well as dollars raised and by substantial margins. 13% more people gave 36% more money. What a superb tangible example of true commitment to the Academy!

I would like to take this opportunity on behalf of the Board of Trustees and the Development Committee to express our heartfelt thanks to all alumni, parents, and friends who gave so generously to insure a continuing quality of excellence at the Academy.

Without diminishing the splendid contributions of their predecessors I would like to pay special tribute to three chairmen.

Tim Greene—Chairman of the Alumni Fund  
Ed O'Dell—Chairman Present Parents Fund  
Bill Brine—Chairman of Past Parents and Friends.

These men gave countless hours of their time and energies to make these new records possible.

And finally, I would be remiss if I did not express my personal Thanks to two gentlemen whose job it is to keep us on track and operating at peak performance. I refer to of course to our new Director of Development Stuart Chase and his Associate Ben Snyder. No school ever enjoyed a better development team and we are fortunate indeed to have them at the Academy.

## Alumni Fund Takes Off to \$108,068

---

As National Chairman of the 1980-81 Governor Dummer Academy Annual Fund, I am pleased to report a year of unqualified success. Our goal of

\$150,000 was significantly exceeded as we reached \$193,625, a 36% and \$51,402 increase over the 1979-80 fund.

The importance of the unrestricted operating resources that the Annual Fund provides cannot be underestimated. As we strive to help our school excel in its mission, the support of GDA's alumni, parents and friends is a sign of strength. In fact, 1594 alumni, parents and friends made unrestricted gifts to the Academy. That is a significant 13% increase over 1979-80.

Our base of alumni support has been growing steadily, and 35% of our alumni contributed this year for an unrestricted total of \$108,068. This increase of three percentage points and \$12,261 represents a commitment to excellence on the part of those closest to the school. And with an average alumni gift of \$98.69 GDA alumni passed many of the nation's prestigious colleges in that category.

A great deal of the credit for our success must go to our army of volunteers. The class agents, phonathon participants and all the rest made it a singularly prosperous year.

My most heartfelt thanks to all of GDA's loyal supporters. I look forward to an even better year in 1981-82.

Timothy G. Greene '50  
National Chairman  
Annual Fund

# Parents Fund Smashes All Previous Records

---

The Parents Committee, formed at the beginning of the 1980-81 academic year, set out to increase parent support to Governor Dummer's Annual Fund to a level at

least equal to that of other comparable and competitive independent schools such as Belmont Hill, Brooks, Groton and Middlesex. It is with great pleasure and pride that I report that the Committee's efforts were an overwhelming success. Parents contributed a total of \$63,769, more than a 300% increase over the \$18,655 raised the prior year.

Even more significant, for the first time parents have come to understand the critical importance

of a strong Annual Fund to Governor Dummer if it is to achieve its objective of providing a superior educational experience to each of our children. Parents now appreciate that all monies raised by the Annual Fund go to meet the current operating expenses of the Academy; and, therefore, every dollar raised by the Annual Fund is a dollar less that must be raised through tuition increases. With this parent understanding, I am confident that strong continued growth of the Annual Fund is assured.

These successes could not have been achieved without the overwhelming enthusiasm and generosity of the entire parent body. The spirit of support shown by the parents unquestionably reflects their vote of confidence in the Academy and its faculty for the outstanding job being done.

Sincerely,

Edward T. O'Dell, Jr. P'81, '84  
Chairman, Parents Committee

## Past Parents and Friends Support Grows

Two years ago when I chaired the solicitation effort amongst parents of current students, I did so because I believed Governor

Dummer was very deserving of our philanthropy—over and above tuition. After Bill (class of '80) graduated, I was glad to help with the past parents and friends fund, because I still have the same attitude. Some people say once our children graduate our attention turns elsewhere, yet I would hope that as parents of an alumnus/a our interest and giving will always

continue to benefit Governor Dummer. It was encouraging to hear parents of '81 students say they, indeed, plan to continue their support. Happily, I am pleased to report that the statistics bear out this "continuing interest." More gifts and dollars were received from parents of former students, and friends, this year than in any year past. Thank you for that showing! Let's keep it up! And improve on it!

**William H. Brine P'80**

Chairman

## What you should not assume about Governor Dummer . . .

. . . is that this solid institution of 218 years will continue to prosper for another two centuries unless you make plans to help her do so, now. Which is the perfect lead-in for an article about the opportunity (Yes! "opportunity") for alumni, parents, grandparents, relatives and friends to help Governor Dummer insure its strength by including her in your will.

As the members of the Governor Dummer Academy family know, the school was established by a bequest in the will of Massachusetts Lieutenant Governor William Dummer in 1763. Through the years many thoughtful individuals and families have written the Academy in their wills.

We all know that for any organization to survive, grow and prosper, regardless of age, it must be well cared for, fed and nourished. So it is with Governor Dummer Academy.

Some considerations of the advantages of giving through your will are these:

—An individual is able to make a much larger gift than was possible as an outright single gift.  
—Estate taxes are reduced.

—Tangible property (real estate, furnishings, antiques, art) may be bequeathed, many times relieving heirs or friends from the task of disposition.

—A bequest for the residue of your estates may be made after the needs of the family, relatives, friends and other interests are cared for.

In summary, giving through one's will is a way to fulfill a desire to support those institutions you believe in while not affecting everyday monetary needs.

Of course, a bequest may be designated, if desired, towards a particular program (scholarship, construction, instruction, faculty salaries, to mention a few).

## In Memoriam

GEORGE H. WATSON, JR.  
'36, of Milton, May 25, 1981

CHARLES J. CALLANAN, JR.  
'37, of Hackensack, N.J.,  
June 18, 1981

## '24

From Tokyo, TAKANAO KUKI recently wrote to GEORGE HALEY '27 of St. Stephens, N.B., Canada, "At Dummer, I enjoyed very much playing baseball and tennis. I was a member of the Tennis Team at M.I.T. and was made captain in 1928. I do not play tennis any more, but go to a golf club once a week now. On other week days I come to the office and work actively. I am seventy-seven years old but am still physically fit."

## '27

Stung to the quick by the evidence above of his old friend Kuki's physical prowess, GEORGE HALEY reported to JOHN ENGLISH '28, "Just out staking the driveway. Am going to have it paved. Be easier shoveling in the winter." Then he concluded, somewhat wistfully, "Have a boy in Calgary that has been there 26 years, and his eldest daughter just made me a Great Grandfather last month. Getting old . . ."

## '28

From East Orleans JOHN ENGLISH observes, "We have not had many class notes about us old fuds from the Ingham era (certainly because you had no news to go on)." It would appear to the Archon that those 'old fuds' of the Ingham era are much too busy flexing to do anything so sedentary as write letters.

## '29

Reminiscing about the phenomenally speedy starts of the track team of '29, WALTER TEMPLE, JR. forwards this simple explanation from California: "I remember Mr. Jarvis, our English teacher and track coach, used to have DAVE CALDWELL '09, the former Olympic track star, come over and help us with our starts. One day he showed

up with his 12-gauge, sawed-off shotgun. We all thought that he'd just come back from a hunting trip. No, he was there to set us on our marks! We were wondering what he was going to do with the gun, when suddenly we heard him shout, 'On your marks . . . Get set . . . BANG!' Those starts were really something! I can still hear that BANG ringing in my ears."

## '47—35th Reunion

May 29, 1982

Just before going to press the Archon learned that on August 25 the Rotary Club of Newburyport named JOSIAH WELCH its Man-of-the-Year for the Newburyport area. Looks as though the Rotarians finally discovered what the Archon knew all along.

## '49

DUER THOMPSON reports that he recently resigned from active management of Thompson & Hoague Company, the family-owned wholesale sporting goods business in Concord, NH. Duer says his early retirement was prompted by a desire to change his life pattern and to escape the rat-race life that had contributed to a heart condition. He intends to divide his time between the beauty of New Hampshire and a warmer climate; so don't be surprised to see him in the St. Petersburg Beach area of Florida.

## '55

In its issue of April 6, 1981 Time magazine carried a picture of CARL 'Skip' PESCOLIDIO, President of GDA's Board of Trustees, standing disconsolately amid what Time's writers called "a sea of navel oranges left to rot in Kern County (San Joaquin Valley, CA)." Of this year's record crop of almost a million and a half tons, nearly half will be dumped because of the U.S. Department of Agriculture's regulations limiting their sale, a regulation which Skip and other growers are fighting to have rescinded. On July 21, Skip was interviewed and featured on the 'Today' show regarding the growers' battle against these restrictions. After its confrontation with Skip, former Harvard decathlon contender, the present Administration may well look back on its tussles with tough Tip O'Neill as no more than a sweet summer breeze.

'61

Newly elected President of the Alumni Association, SAM WAKEMAN proudly writes the *Archon*, "Linda and I had a daughter, Cornelia Barton, on September 2, 1980, and are expecting a second child in December 1981." He adds that he is with the international brokerage firm of Rollins, Burdick, Hunter in Boston.

'65

DAVID FUESS was recently featured for his photographic work in the *Monterey (CA) Life* magazine. He is a writer, photographer, and teacher of yoga among other things.

## '67—15th Reunion

May 29, 1982

BOB BASS keeps busy in Fort Worth with four children and three businesses: a Volvo dealership, a townhouse development firm, and the family foundation. He sees Val Wilkie often.

"I am presently an Associate with the firm of Bull, Field, Volkmann, & Stockwell, Architects, of San Francisco," writes RICHARD BRAYTON.

BARRY DAVIDSON informs us that he now has two children: James Matthew, 2½ years old, and Ashley Elizabeth, 5 months.

"On May 1, 1981, I was elected a Vice President of Chemical Bank, writes CARTER EVANS. "And on January 13, 1981," he continues, "I became the proud father of Carter S. Evans, Jr., Class of '99."

JAY MARSH, his wife Becky, and his four-year-old daughter (also Becky) are living in Little Rock, where Jay is chief financial officer for Ensco. In a year he will have a law degree from the University of Arkansas.

PETER OSGOOD is a systems analyst with Sperry Univac in suburban Washington, DC. Though he likes the area, he misses the Colorado mountains. CAP PURINTON, who repairs nuclear subs at the Navy's Portsmouth, NH, shipyard, is the proud father of a one-year-old son, Zachary. In his spare time Cap is building a miniature steam locomotive.

MIKE ROGERS is happily ensconced within the fabric of West Coast delirium. He has been operating an image consulting office; concerned with progressive solutions for corporate imagery, architecture, and film design. Present assignments have him drawing madly for a proposed prime time TV series; renovating and expanding operations for a restaurant in Hawaii; and directing and designing animated com-

mercials. In the past three years, he has had work shown in Paris, France; been part of a conceptual show throughout the museums of Japan; and in 1979, was selected an Outstanding Young Man in America.

His outside activities warrant rancho deluxe feeds at his house north of Los Angeles; where he is beginning to restore a '62 Mercedes, once the thoroughbred of the Platters. Come next spring, he will catch up to celebrate fifteen big ones with all his classmates.

Former Social Chairman LEW RUMFORD was married May 10 in Washington, DC, to Fran Rosenfeld. Ushers WIN BURT and DAN MORGAN and bystanders BILL ALFOND and BEN BEACH made sure Lew went through with it. Even JAY HIGGINS '58, who once ruled Ingham II, (home of the JV's), was there. The food was outstanding.

'68

"Moved again," writes CHARLIE JOHNSON, "from Gallup, NM, where I worked for the Bureau of Indian Affairs, to Sacramento, CA, where I now work for the Bureau of Reclamation as a soil scientist. My wife Chris is an R.N. at the local Kaiser/Permanente Hospital, while my son Brian (20 months) actively encourages our three cats and one dog to keep the house in a permanent state of chaos."

'69

Denying the allegation that he was a schoolteacher, as reported in the Alumni Directory, SAM FLEMING has sent the *Archon* a welcome and carefully annotated statement of what he really has been doing since graduation:

1970-74 Helicopter Mechanic, USAF  
1974-75 Ostego Hills Dairy Farm, Cooperstown, NY

The Class of '67 Varsity Croquet Team—front: Leary, Swift; rear: Murphy, Morgan, Beach, Davis

1975-77 A.A.S. degree, State Univ. of NY, Morrisville

1977-79 B.S. degree, Animal Science, Cornell

June, 1979 Married to Sharon Timmes of Dansville, NY; ED MURPHY and TIM TENNEY showed up 1979-81 M.S. degree (June 12) Univ. of Wisconsin, major in Agronomy, minor in Dairy Science.

Sam adds that Sharon and he are moving to Vancouver, WA, where he will work in state extension on the county level as a dairy and forage specialist. Sending his best regards to every one, especially Heb Evans and Buster Navins, Sam closes by noting that PETER DORSEY is to be commended for his perseverance and John Ogden "for my spelling" (cf. perseverance above).

'70

"This summer," writes TOM TURNER, "has been eventful. Priscilla and I had our first child, John Cameron Turner; and we will spend the summer getting used to a new person. I will finish an M. Ed. in counseling psychology from Lewis & Clark College, and in September I'll start my sixth year of teaching in elementary school."

NAT WILLIAMS has informed the *Archon* of his new job as Assistant Legislative Director for the Nature Conservancy and explains, "The Nature Conservancy is a private, nonprofit land-conservation organization dedicated to preserving the best examples of significant eco-systems. I represent their interests on Capitol Hill."

'74

From the *Newburyport News* the *Archon* has received a clipping announcing the engagement of Nancy Loretta Doyle to JEFFREY RICHARD BEACH of Wolfeboro, NH. From Oregon State University Jeff received his B.S. degree in Forest Management and is presently employed by the Scottish Lion Inn, North Conway, NH.

'75

"My husband Bob and I bought our first home in a lovely part of Portland," writes the former MARY ANN MYERS. "I am working part time at a bank and enjoy being a housewife."

'80

CARL SCHWARTZ reports that he is working on Nantucket this summer and plans to travel west in August. "Back to UNH in the fall," Carl signs off.

# Fall Athletic Schedule 1981

## Men's Soccer-Varsity
